

NATURAL COMMERCIAL ODOR ELIMINATORS

Commercial strength. People-safe.

Bad smells can damage a business' reputation, even when other services are exceptional. Many businesses use fragrances with harmful ingredients to hide them (temporarily). Professionals in many industries trust Fresh Wave IAQ® to remove bad odors – for good – and help protect their name.

Natural

We use the natural power of plant oils to remove odors.

Safe

No harsh or toxic chemicals.

Effective

Independent research & testing prove it works.

Complete

Products & equipment effective on any odor, from any source.

Trusted by Pros. Proven by Science.

While we use complex chemistry terms like adsorption, absorption, gas solubility, and reaction, the science behind its effectiveness is surprisingly simple.

Contact / Adsorption

Fresh Wave IAQ® is delivered into an area affected by odors; it attracts and attaches to odor molecules.

Increased Solubility

Enhances ability of odorous gases to dissolve in water.

Absorption

Surrounds odor molecules, neutralizing their smell.

Reaction / Biodegradation

Molecules fall to the ground and naturally biodegrade or a chemical reaction creates inert compounds.

Safer Choice

Fresh Wave IAQ Air & Surface Liquid and Gel products have earned the U.S. Environmental Protection Agency's Safer Choice certification as products that are safer for people, pets, and the planet. Delivery systems & equipment are not Safer Choice certified.

Natural Ingredients

The effectiveness of our products start with the quality of raw materials we use. We only use ingredients that are sustainable and do not hurt the environment. Our proprietary blend includes:

Water

Lime

Pine Needles

Aniseed

Clove

Cedarwood

Pure Water, Pure Products

Even the best ingredients would be ruined by contaminated water. Our in-house reverse osmosis (RO) and carbon filtering systems create the purest water possible.

Water Source

Carbon Filter
(pulls out chlorine)

Water Softener

RO Membranes
(remove bacteria)

Odor Solutions

AIR & SURFACE LIQUID

Ideal for fast, targeted odor control for fabrics, surfaces, and indoor air.

Available in	Item #
32 oz. Spray RTU (6/cs)	553-6
32 oz. Spray RTU (12/cs)	553-12
1 Gallon Liquid RTU (4/cs)	555-4
64 oz. Concentrate (1/cs)	558

GEL

Our continuous-release formulation provides constant odor elimination. As it evaporates, gel releases odor-removing molecules into the air.

Available in	Item #
8 oz. RTU (12/cs)	545-12
16 oz. RTU (12/cs)	549-12
24 oz. RTU (12/cs)	546-12
2 Gallon RTU (2/cs)	547-2
5 Gallon RTU (1/cs)	548
Wall Unit	584

CARPET & UPHOLSTERY ADDITIVE

Neutralize deep-set odors in furniture and floor coverings. Ideal for hot water extractors, bonnet cleaners, and compressed air sprayers.

Available in	Item #
1 Gallon RTU (4/cs)	572-4

LAUNDRY ADDITIVE

Commercial detergents are good at removing dirt and stains, but often fail at removing odors. Add in addition to standard laundry detergent to boost its odor-fighting power.

Available in	Item #
1 Gallon RTU (4/cs)	563-4

Delivery Systems & Equipment

To quickly remove odors in commercial spaces and concentrated areas, we developed innovative equipment solutions to deliver our products. The Dry Vapor System (DVS) program was designed specifically to disperse Fresh Wave IAQ® Air & Surface and Smoke Away products.

DVS25

The new DVS25 was developed for smaller areas and quicker access. Use the easy-lift handle to move the unit from storage to treatment location.

DVS45

For mobile odor elimination, the DVS45 unit's castors, push bar, and lift handles allow for easy transport from one area to another.

DVS65

When odors are concentrated in one area, the stationary DVS65 unit can be installed. An invisible curtain of vapor prevents odors from escaping.

	DVS25	DVS45	DVS65
Mobility	Easy-lift handle; compact	Swiveling casters and side-mounted handles	Stationary
Applications	Hotel rooms, cruise ships, car rental fleets, vehicle detailing	Hotel rooms, restaurants, health care facilities, offices	Dumpster rooms, loading docks, septic systems, and grease traps
Size	18" x 7.5" x 11" / 7.5 lbs.	18" x 20" x 28" / 55 lbs.	24" x 16" x 48" / 117 lbs.
Capacity	32 fl. oz.	2 gallons	7 gallons
Output	1.75 pints / 24 hrs.	1-5 pints / 24 hrs.	2-6 pints / 24 hrs.
Power	Standard AC or Auto DC	Standard AC	Standard AC
Safety	ETL certification	ETL certification	N/A

Delivery systems & equipment are not Safer Choice certified.

VAPOR PHASE VS. OZONE GENERATORS

Until recently, Ozone Machines have been the only odor-removing solution available to facilities professionals. The Environmental Protection Agency (EPA) has dedicated much time and effort detailing the harmful effects of Ozone Machines, and the health risks associated with exposure for any duration.

Fresh Wave IAQ's Vapor Phase units provide a safer option. Because Fresh Wave IAQ products are made with natural ingredients, they can be used anywhere, anytime, even near children, pets, and individuals with compromised immune systems.

Legacy of Expertise

CONTROLLING ODORS COMES NATURALLY TO US.

For nearly 30 years, the odor-eliminating technology behind Fresh Wave IAQ has been used in industries like wastewater, asphalt, landfills, and food processing. Using this odor-removing power, Fresh Wave IAQ products are strong enough to neutralize the most stubborn odors, yet safe for people and the planet.

Since our founding, the makers of Fresh Wave IAQ, OMI Industries, has been leading innovators in odor management solutions. From our state-of-the-art research and development center, our team of engineers and chemists design and manufacture products to eliminate the toughest nuisance odors from any industry. Our group of expert consultants tailor solutions for companies and businesses worldwide.
