

Pleasant Clean System

Keeps your restrooms clean and fresh as the great outdoors.

Building and facility managers spend a great deal of time, effort and dollars to maintain their public and employee areas as showplaces.

Nothing can ruin a positive impression faster than an offensive restroom!

The SSS Pleasant Clean System provides a coordinated program for restroom maintenance. The Pleasant Clean System includes a non-acid ready-to-use cleaner, two concentrated disinfectant cleaners and multiple odor counteractants. You now have available a broad base of product solutions that are all formulated with the unique and highly effective Pleasant Scent fragrance.

In the Pleasant Clean System each product reinforces the other as it provides a clean and pleasant restroom environment.

Pleascent Clean System

“Team Pleascent Clean”

The “Team Pleascent Clean” is formed around a single highly effective odor counteract fragrance. Pleascent Scent is a highly concentrated odor eliminator. It quickly counteracts unpleasant malodors. Pleascent Scent products refresh the air as they work together, yet are not overpowering. The Pleascent Clean System is a powerhouse system of cleaners and disinfectants plus odor counteractants that work as a team to enhance the cleanliness and appearance of your restrooms.

Team Pleascent Clean Line Up

Pleascent Clean

A mild, foaming, non-acid cleaner for all washroom fixtures. It is an EPA registered hospital grade disinfectant effective against many pathogens including Herpes Simplex Type 2 and HIV-1 (AIDS Virus) when used as directed. Cleans, disinfects and leaves a fresh clean fragrance. Ready to use.

ENZ-ODOR

A liquid bacteria product featuring the latest technology for treating organic soils and smells naturally. Excellent for the maintenance of drains and removal of organic soils from hard and soft surfaces. Safe and easy to use. Not harmful to the environment, plumbing or septic systems. Eliminates odors and leaves the Pleascent Scent fragrance.

Pleascent Scent Metered

The power of the unique Pleascent Scent odor counteractant fragrance in a convenient metered aerosol dispensing system. Excellent bloom and extended suspension time are a result of the extra fine particle size. Fits most time dispensing machines.

Pleascent Scent Urinal Screens

The Pleascent Scent fragrance is available in two styles of Urinal Screens to control malodors at their source. The flat Urinal Screen is impregnated throughout to give long lasting malodor control. The Extra Duty Urinal Screen also includes a special enzyme block. The special enzyme block helps dissolve mineral deposits, scale and uric salts with every flush for a period of 30 days.

Pleascent Neutra-Shine

An excellent neutral cleaner, virucide and disinfectant for virtually all washable surfaces throughout your facility. Ideal for use on detergent resistant floor finishes, will not dull or attack finish. Quat formula is surfactant based and enhanced with the powerful Pleascent Scent fragrance. Low cost in use, 2-4 ounce dilution ratio.

Pleascent Scent Liquid

An excellent odor counteractant that eliminates odors instead of covering them up. The unique, concentrated, waterbased formulation chemically reacts with offensive odors while providing a pleasant air freshening effect. May be used alone at 4 ounces per gallon (apply to source of odor or mist into the air for instant odor control), or added to cleaning solutions (i.e. carpet extraction).

Pleascent Scent Toilet Bowl Rim Hanger

The special enzyme block helps dissolve mineral deposits, scale and uric salts in the toilet and plumbing with every flush. In addition to the Pleascent Scent fragrance to control malodors, it gives the standing water a fresh light blue color.

Utilizing all components of the Pleascent Scent System will greatly enhance your efforts as you work to maintain a clean and pleasant facility.
