## Back Pack Vacuum

**STAGE 1 - 2-PLY MICRO FILTER BAG**

**STAGE 2 - MICRO CLOTH FILTER**

**STAGE 3 - HEPA DOME FILTER**

**STAGE 4 - EXHAUST FILTER**

Clean twice the area, with less fatigue and body strain

- Four Level® Filtration with HEPA captures fine dust and pollutants.
- Removes substantially more soil from carpet and is more than 3 times faster than traditional uprights.
- Ideal for vacuuming schools, office buildings, healthcare facilities, or any large, high-traffic area that requires extreme power and suction.
- Advanced harness technology allows the vacuum to fit comfortably and ergonomically on the back and hips.
- Tools for detail cleaning fit on the attached utility belt.
- Thermal protector shut-off switch prevents motor from overheating due to a full filter or obstruction within.
- Earned the Gold Seal of Approval/Green Label from CRI, signifying Tailwind 1000H meets higher standards for carpet cleaning effectiveness and Indoor Air Quality.
- Meets LEED requirements.
