Enhance the Restroom Experience

TouchFree DISPENSING

Luxury meets efficiency for a healthier restroom

Image Enhancement

With a sleek, polished chrome finish, this dispenser enhances the aesthetic of any restroom while the touch free function clearly indicates a facility's commitment to good hygiene. Premium Hand soap refills provide a luxurious handwashing experience while effectively cleansing skin.

Labor Efficiencies

The patented locking refill system saves labor, strain and stress. Once the refill bag is locked into the dock, staff is free to complete other tasks. Setting a regular maintenance schedule is easy: refill one dispenser or top off many.

Cost Savings

The touchless system consistently delivers the right amount of soap and evacuates product fully. The locking refill dock and bag system eliminates leaks, saving on product waste.

Safety and Health

Eliminates unhygienic under the counter servicing of refills. Touch free dispensing reduces cross contamination. Your staff and customers benefit from a clean, healthy dispensing system.

44680

Advanced waterproofing and robust construction withstand heavy, high-traffic use

Sensor switch can be adjusted to achieve desired dispensing range

Dispenses .6 mL of soap per hand wash

Soap refills sold 3/1200 mL

Canister capacity 1500 mL

Engineered for more than 40,000 product dispenses; four D-cell batteries are included for powerful, long-lasting function; A/C adapters sold separately

No More Crawling Under the Sink!

Using a patented refill dock and resealable product bags, this innovative system refills from above the counter. FoamClean dispensers eliminate the need to remove panels or crawl under the counter to change refills. Soap flows into the reservoir then stops automatically once the reservoir is full - a quick, clean and convenient process.

Sealed Sanitary System

Completely sealed and self-contained to eliminate the risk of contamination, refill bags open only when locked into the refill dock. Once removed, both refill bag and refill dock reseal to keep water and air out. When the dispenser head is locked in place, the system is again sealed.

Manual DISPENSING

Durable and easy, complements any decor

Top 10 Benefits of FoamClean QUALITY SKIN CARE Dispensers

- Eliminates hygiene and safety risks associated with crawling under counter to refill
- Completely sealed system significantly reduces cross contamination
- Soap is fully evacuated - no waste from partially filled cartridges
- Thick and luxurious foaming soap refills enhance the user experience
- Durable, robust construction for high-traffic restrooms
- Reduces waste for a more sustainable facility
- No messy soap spills or leaks
- Locking refill system reduces labor, freeing up time for other tasks
- High capacity soap reservoir provides up to 2,500 handwashes
- Easily replace dated, ineffective counter mount systems

Made from ABS plastic with chrome accents
