Foaming Action	Good
Acid Content	22% Phosphoric
Biodegradable	
Specific Gravity	1.123
pH	1.0 to 1.5
HMIS Hazard Rating	
Health	
Flammability	
Reactivity	0
Personal Protection	

#### What the Pros Know

Phosphoric acid restroom cleaners are non-fuming and less corrosive than those made from hydrochloric acid.

Do NOT mix with bleach, ammonia, or non-acid restroom products.

- Fast acting, heavy duty Powerful labor saving cleaner
- Mild-acid formula Will not harm plated fixtures
- Fresh smelling, powerful deodorant Leaves rooms smelling fresh and clean

Specially formulated with a phosphoric acid base and ultrathick detergent system to thoroughly clean and deodorize a variety of bathroom fixtures and surfaces. 22% phosphoric acid effectively cleans tough stains and mineral deposits without risk of harm to clothing, chrome surfaces, plastic or stainless steel.

Recommended for regular maintenance of wash basins, bathtubs, shower stalls, chrome fixtures, stainless steel/drinking fountains, tile, grout, and porcelain enamel. May also be used on toilets and urinals.

#### Directions

Wear safety equipment recommended on MSDS, and read all directions and cautions prior to beginning your work. See label for complete directions and use only as directed.

## Dilı surf

#### TO CLEAN HARD SURFACES:

Dilute product 1:3 in warm water. Apply directly to surface and immediately rinse thoroughly.

#### TO CLEAN TOILET BOWL:

Remove water from bowl. Pour 1 oz. on applicator. Clean entire unit, especially under rim at water outlets.

Flush and rinse out applicator.
