### What the Pros Know

Effective odor counteractants quickly neutralize odors while living bacteria grow, multiply, and produce enzymes to permanently eliminate the odor source. Great for deodorizing carpets and a wide variety of other surfaces, including toilets, trash cans, floor drains, grease traps and more.

### Description

Combines the effectiveness of enzyme-producing non-pathogenic bacteria, odor-encapsulating counteractants, and powerful fragrances. Neutralizes and eliminates offensive odors, leaving a pleasant lingering fragrance. Use directly on the odor source or as an additive to your carpet cleaning solution. Excellent for drain & grease trap maintenance.

### Directions

**Odor Elimination:** Dilute 2-4 ounces per gallon of water. Apply directly to the odor source, allow dwell time for effective odor elimination.

**Cleaning Solution Additive:** Compatible with most carpet cleaning and hard surface detergents for deodorizing while cleaning. Add 1-4 ounces per gallon of cleaning solution in a mop bucket, auto scrubber, or carpet extractor.

**Drain Line & Grease Trap Maintenance:** Use Endz-Odor II as a drain line or grease trap maintainer to help prevent clogs, buildup and heavy odor.

**Drain Lines** - Pour or dispense 4 ounces of undiluted product into the drain twice per week.

**Grease Traps** - Pour or dispense 6 ounces of undiluted product daily down the main drain.

**Important Notes:** Do not combine with SSS Triple Sanitizing/Deodorizing Carpet Cleaner or EPA Registered disinfectants.
