

CARPET PROTECTOR

STAIN RESISTANT TREATMENT

Technical Data

Specifications

Color:	Clear
Odor:	Characteristic
Base:	Biodegradable detergents
pH:	6.8 + 0.5
Viscosity:	Water thin
Foam:	Low
Phosphate:	None
Rinsability:	Excellent
Flash Point:	None
Storage/Stability:	2 years
Weight Per Gallon:	8.60 lbs.
Freeze/Thaw Stability:	Keep from freezing

What the Pros Know

Conventional cleaning methods begin to remove the stain protection from carpet fibers after 2 to 3 cleanings. Carpet Protector contains Capstone Soil and Stain Protector that restores stain resistant properties originally manufactured into the carpet.

Description

Coats and protects fibers from becoming soiled and stained from daily wear and spills. Carpet will stay cleaner longer and clean easier. Increases vacuum efficiency. Dries quickly and leaves no odor. Convenient, ready to use formulation.

Directions

Read all directions and cautions on the label prior to using. Consult the MSDS for recommended personal protection equipment.

Carpet should be thoroughly cleaned before treatment. For best results, apply after extraction cleaning on damp carpet. Shake well before using.

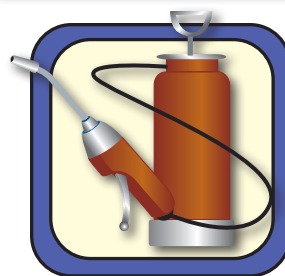

Coverage:

Damp, Clean Carpet: 600-800 square feet per gallon.

Dry Carpet: 300-400 square feet per gallon.

Holding the spray nozzle 12 to 18 inches from the carpet, apply half the solution over the entire carpet area, spraying in a left to right direction. Then apply the other half over the entire carpet area by spraying in a top to bottom direction. Maintain a light, uniform spray pattern for even coverage. Allow carpet to dry before use.

Important Notes: Pre-test carpet for colorfastness in an out-of-sight area. Perishable: Keep from Freezing. Avoid Excessive Heat (above 120° F). Store in a cool, dry place away from excessive heat.
