Description

Concentrated liquid quickly eliminates foam in recovery tanks of extractors, automatic shampooing equipment, wet vacs, and automatic scrubbers. Saves labor by reducing unnecessary dumping of foam. Protects motors from damage by foam.

Directions

Read all directions and cautions on the label prior to using. Consult the MSDS for recommended personal protection equipment.

Shake well before using. Add 1 to 2 ounces per gallon capacity of the recovery tank of extraction machines, wet vacuums and automatic scrubbers. For additional foam control, spray inside walls of recovery hose and recovery tank. Do not apply directly to floors.

What the Pros Know

Never add Liquid Defoamer directly onto the carpet or hard surface, only into recovery tanks.
