

PRO SERIES

AUTOMATIC DRY FOAM CARPET SHAMPOO

High Performance Carpet Shampoo

High-sudsing, soap-free, dry foam shampoo penetrates and removes heavy soil. Formulated for use with rotary and foam machines. Can also be used to shampoo upholstery. Hard water tolerant and leaves no sticky residue. Low moisture foam helps speed drying. Contains Dupont Zonyl Soil and Stain Protector. Formulated with Pleascent Scent fragrance.

**Highly Concentrated Shampoo - Multiple Applications -
Low Moisture Foam For Speed Drying**

Directions

For Rugs and Carpet:

Vacuum carpet thoroughly. Pre-test carpet for colorfastness in an out-of-sight area. Spot clean or pretreat heavily soiled areas with your favorite SSS prespray according to label directions.

Rotary Machine Shampooing:

Dilute 1:16 (8 ounces per gallon of water).

Dry Foam Shampooing:

Dilute 1:8 (16 ounces per gallon of water).

Work the rotary shampoo machine in overlapping circles with the solution feed on. Turn off the solution feed and work back over the area a second time. When using a shampoo machine, operate it in a back and forth motion to ensure even coverage. Avoid overwetting the carpet.

(directions continued on second page)

Specs

Dilution: 1:16 - 1:8

pH Level: 7.5 - 8.5

Color: Water Clear

Fragrance: Floral

Pack: 4/1 Gallon (#48007)

Advance Gemini Surfactant technology revitalizes and cleans better than conventional surfactants due to its superior surface active properties.

PRO SERIES

After shampooing, use a wet vacuum to pick up soil and foam, vacuum carpet when dry. Or, extract with SSS Carpet Rinse Plus according to label directions. Add SSS Defoamer to the recovery tank as necessary. Set the carpet pile and protect the carpet from furniture legs and bases while drying. Allow to dry thoroughly before opening to traffic.

For Upholstery Cleaning:

Dilute 1:8 (16 ounces per gallon of water).

Pre-test for colorfastness in an out-of-sight area. Mix 16 ounces per gallon of warm water in a bucket. Agitate the shampoo into a thick rich foam. Apply only the foam to the fabric with a clean, white cloth or upholstery brush. Avoid overwetting. After drying, vacuum.
