What the Pros Know

The use of this product in an automatic scrubber is highly recommended, and is the most productive way to maintain your floors.

Description

This product is an ideal companion for any environmentally responsible floor care program. Meets today's need for a product that contains no zinc or other heavy metals that can be harmful to wastewater treatment systems. Regular use of this product keeps floors looking great day after day. A special proprietary mix of acrylic polymers and surfactants will bond to the surface of the floor to create an anti-slip surface, while reducing the negative impact conventional floor care products have on our environment. Concentrated for economical use dilutions. The use of this product in an automatic scrubber is highly recommended, and is the most productive way to maintain your floors. This product is to be used on any floor that has a finish or protectant down as a base coating.

Directions

Wear safety equipment recommended on MSDS, place Wet Floor Signs and read all directions and cautions prior to beginning your work.

FOR MOP-ON RESTORING: Remove surface dirt from the floor by dust mopping or vacuuming. Dilute concentrate 8 oz. per gallon of water and apply an even coat with a clean finish mop or applicator. Allow restorer to dry thoroughly. The surface will have a hazy appearance. Buff or burnish to restore the floor while restoring the mop down gloss of the original finish.

FOR AUTOMATIC SCRUBBERS: Dust mop or sweep thoroughly. Dilute concentrate 4 oz. per gallon of water and apply with a medium flow. Allow surface to dry thoroughly. Buff or burnish to clean and restore the floor to its original gloss.

FOR SYNTHETIC FLOORS: Remove all loose debris with a dust mop or vacuum. Dilute concentrate 6 oz. per gallon in an automatic scrubber with water and wash the floor with white or red pads using light pad pressure.
