

**PRO SERIES**

**PS-X<sup>2</sup>**

**ULTRA POWER STRIPPER**  
**ULTRA ACCIONADO REMOVEDOR DE PISO ACABADO**

*Technical Data*

**Areas of Use**

- Hospitals, nursing homes, doctors offices
- Schools, universities, child care centers
- Malls, retail stores, supermarkets

**Specifications**

Available Sizes .....4/1G, 5G  
 Physical State .....Liquid  
 Color..... Water Clear  
 Odor .....Solvent, Characteristic  
 Ammoniated.....No  
 Viscosity.....Thin  
 Water-based.....Yes  
 Emulsifier.....Extra Heavy Duty  
 Flash Point.....63°C (145°F)  
 Specific Gravity..... ~ 0.968  
 pH ..... 11.5 to 12.5  
 Storage/Stability ..... 2 years

**HMIS Hazardous Materials I.D. System**  
 Health .....3  
 Flammability .....2  
 Reactivity .....0  
 Personal Protection .....C

**What the Pros Know**

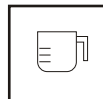

This product can cause fading and discoloration of some older tile. Test in an out of the way area before using.

- No-rinse formula - Eliminates flood rinse
- Speed stripping action - Requires no agitation for most jobs
- Heavy duty emulsifier - For the toughest floor buildup
- No harsh caustics - More user friendly
- Non-ammoniated - No harsh ammonia odor
- Versatile - Use on VCT, terrazzo, quarry and concrete

This true no-rinse stripper, is formulated to save time. It will quickly penetrate, emulsify, and liquefy floor finish. This product uses a concentrated solvent system that re-dissolves the floor finish, rather than just softening the finish prior to scrubbing. It is versatile and can be used with or without machine agitation. It dries leaving no residue behind; preventing finish application problems caused by improper rinsing.

**Directions**

**Wear safety equipment recommended on SDS, place Wet Floor Signs and read all directions and cautions prior to beginning your work.**

1. Dilute 1:6 (18 oz./gal.) with cold water (avoid using hot water). For light build-up dilute 1:27 (4.5 oz./gal.).

2. Apply liberally to floor. Allow to stand for about 5 minutes. Keep area wet by adding more solution if necessary.

3. Scrub floor with autoscrubber or floor machine and an appropriate stripping pad.  
 4. Pick-up solution with mop or wet-vac/squeegee. Follow pick-up step with cool water damp mop rinse as part of the pick-up process.

5. Allow floor to dry and inspect for residual finish. If residual finish is present, repeat steps 2-5.

**Note:** This product can cause fading and discoloration of some older tile. Test in an out of the way area before using.
