

Mean Green

SCRUB-BRUSH PAD

Ideal for Uneven Surfaces

For getting into the cracks and crevices of uneven floor surfaces and deep grout lines. For unsurpassed cleaning results.

The SSS Mean Green Scrub-Brush Pad provides brush scrubbing action in a pad. Now there is no need for expensive brushes and the time consuming process of changing cumbersome brush driver blocks when you want to scrub uneven surfaces and clean deep grout lines.

- The Mean Green Scrub-Brush Pad is constructed of heavy duty turf material for exceptional cleaning performance and long life.

- No harsh chemicals needed. Cleans with water or neutral cleaning solution.
- Mean Green Scrub-Brush Pads are not laminated. This allows for the unobstructed flow of water or cleaning solution when using an auto scrubber.
- Superior construction, with no stitched borders, provides "edge to edge" cleaning power.
- Ideal for: Grouted Tile • Terrazzo • Concrete

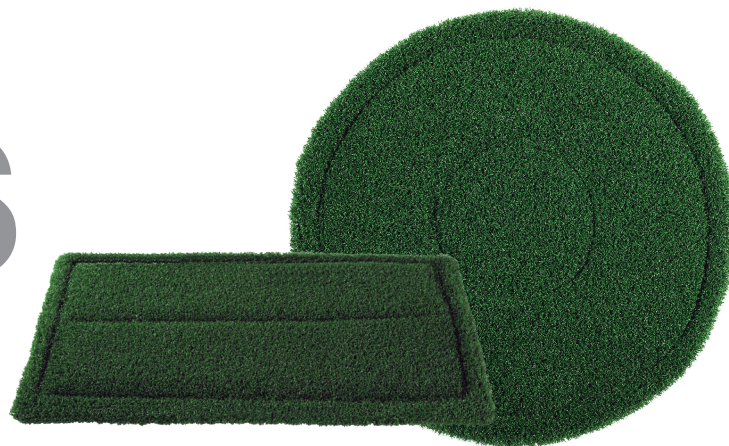

For use on Standard Speed Floor Machines*, Automatic Scrubbers and Oscillating Floor Machines. *Conventional machines up to 500 rpm.

Also available in 4.5" x 10" size for use on utility pad holders.

Mean Green SCRUB-BRUSH PAD

IT'S A BRUSH! IT'S A PAD!

The Mean Green Scrub-Brush Pad works like a brush, with its coarse bristles, by aggressively cleaning hard to reach areas such as tile, concrete and grout, but with the convenience of a pad! It is more cost-effective than utilizing traditional brushes or replacing expensive brush driver blocks. This unique pad is designed to be both flexible and lightweight for easier application and alternating with traditional floor pads when the application requires multiple pad types.

THE MEAN GREEN SCRUB-BRUSH PAD CLEANS ALL TYPES OF FLOORS.

These pads are ideal for use on a variety of floors, including: concrete, terrazzo, deep grouted tile and other unlevel surfaces.

LONGEVITY = VALUE.

Used on the proper floor types, you can expect to get up to 300,000 square feet. Superior construction, with no stitched borders, provides "edge to edge" cleaning power. Of course preventing soil from drying on the pad, along with proper cleaning after every use will prolong the life of these pads.

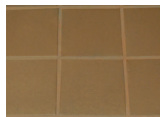

TAKING CARE OF YOUR MEAN GREEN SCRUB-BRUSH PAD.

The pad should be thoroughly cleaned after each use to prolong its life and efficiency. Flush out dirt and debris with a high pressure garden hose. Use hot water if available. To dry, stand the pad on its edge and prop against a wall or rack. This allows the water to completely drain from the pad and promotes faster drying.

Note: Do not use commercial washing machines or dryers.

Heavily soiled floor and grout lines before cleaning with a Mean Green Scrub- Brush Pad.

Floor surface, including grout lines, are sparkling clean after scrubbing with a Mean Green Scrub-Brush Pad.

COMPATIBLE WITH MANY MACHINES.

The Mean Green Scrub-Brush Pad fits standard speed floor machines, automatic scrubbers and oscillating floor machines. This pad's open construction allows water to flow through to the surface for optimal scrubbing action to produce maximum results every time. Round Pad
