KILL TIME FOR
SARS-COV-2**

PLEASCENT NEUTRA SHINE

**DISINFECTANT, VIRUCIDE* AND CLEANER
NEUTRAL pH**

Technical Data

Areas of Use

- Hospitals and nursing homes
- Clinics and doctor's offices
- Schools, universities and child care centers
- Office buildings and retail stores
- Hotels and motels
- Airports, public transportation
- Public restrooms
- Restaurants and cafeterias
- Industrial plants, food processing plants

Specifications

Available Sizes	4/1G, 5G, 55G
Physical State	Liquid
Color.....	Blue
Odor.....	Fresh & Clean
Wetting Ability	Excellent
Freeze/Thaw	Stable
EPA Registered	Yes
Biodegradable	Yes
Detergency	Excellent
Specific Gravity.....	1.001
pH.....	6.0 to 8.0
USDA.....	C1, C2

HMIS Hazard Rating

Health	3
Flammability	0
Reactivity	0
Personal Protection	C

What the Pros Know

Quaternary germicides are substantive to the surfaces they clean and disinfect. This means that, even when rinsed, there is a layer of germicide residue remaining. This very small residual becomes active when dampened. This characteristic helps keep bacterially caused odors under control.

- Effective against SARS-CoV-2 (COVID-19 Virus) in 2 minutes on hard, non-porous surfaces.
- Surfactant enhanced - Excellent cleaning capabilities
- Pleasant, clean deodorizing scent - Counteracts airborne odors
- 2-4 ounce dilution ratio - Lower cost in use
- Quat based formula - Can be used as a general disinfectant or hospital grade disinfectant at correct dilution
- Neutral pH - Safe on finished floors

Daily cleaning and disinfecting can be accomplished with this product. Pleascent Neutra Shine is a quat based disinfectant that is effective against bacteria including Salmonella Choleraesuis, Pseudomonas Aeruginosa and Staphylococcus Aureus on hard surfaces. It is also effective against the HIV-1 (AIDS) Virus.

Pleascent Neutra Shine is formulated to clean and disinfect while leaving a fresh, clean deodorizing fragrance. Ideal for use in virtually all institutional or commercial sanitation programs for the control of disease and odor causing germs. It may be used on virtually all washable surfaces such as porcelain, tile, enamel, metal, resilient floors, laminates and painted surfaces. It will not dull or remove detergent resistant floor finishes.

Directions

Wear safety equipment recommended on MSDS, place Wet Floor Signs and read all directions and cautions prior to beginning your work.

Remove gross soils (labels, gum). Dust mop floor daily.

Use daily or as needed. Dilute this product (2-4 oz. per gal.) with tap water. Clean with mop, auto scrubber, sponge, cloth or brush to remove spots, spills, and surface soils.

Allow to work 10 minutes to assure complete disinfection. Allow to dry. No need to rinse.
