

Commercial Vacuums for the Professional

ProForce 1500XP HEPA

If a backpack doesn't work for your facility, try the ProTeam ProForce 1500XP HEPA. With added filtration and a low profile, this vacuum will clean with maximum efficiency and effectiveness.

Super CoachVac HEPA and Super QuarterVac HEPA

ProTeam's productivity powerhouses designed to tackle the most demanding cleaning challenges. These powerful and high filtration units are ideal for vacuuming high square-footage areas that require the utmost cleanliness.

Super Coach Pro 6/10

New triangular shape combined with ProTeam's innovative articulating harness has resulted in a vacuum that feels more like a part of your body. Weight of backpack is distributed to the natural center of gravity, so you have better balance no matter how you move.

SSS Tailwind 1000H Backpack Vacuum

When faced with the toughest commercial cleaning challenges, step up with the power of the Tailwind 1000H. This unit is 3x faster than an upright, 43% more efficient and built to last. With little moving parts and a long warranty, this unit has a low cost of ownership and will last for years to come.

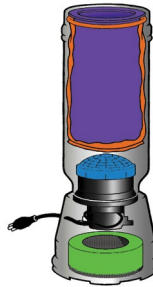

ProTeam Commercial Vacuums for the Professional

IMPROVED ERGONOMICS - Independent studies have proven that backpack vacuum cleaners require less than half the energy and effort to clean the same area as an upright vacuum with less fatigue and body strain.

IMPROVED LABOR EFFICIENCY - Clean twice the area in half the time it takes with a conventional upright or canister vacuum.

FOUR STAGE FILTRATION - The most powerful backpack vacuums on the market have 6 or 10 quart filter capacity designed to handle high square-footage areas that require the utmost cleanliness. HEPA filter works in concert with an advanced Four Level Filtration system to capture and contain airborne particulate.

STAGE 1 - 2-PLY MICRO FILTER BAG

STAGE 2 - MICRO CLOTH FILTER

STAGE 3 - HEPA DOME FILTER

STAGE 4 - EXHAUST FILTER
