

NAVIGATOR

Dilution Control System

Why It's A Better System

- Concentrate and RTU labels are numbered and color coded for safety and to facilitate training
- Closed system - Spill proof container
- New Metered Tip with each concentrate provides proper dilution each time
- English/Spanish label copy
- Each concentrate has an easy carry handle
- Recyclable container

Why It's A Better Cleaner

- Highly concentrated - provides low end use cost.
- Requires less scrubbing than alkaline cleaners.
- Acid restroom cleaner - safely and thoroughly removes soap scum, hard water deposits, rust stains, body oils, fats and dirt.
- Fresh wintergreen fragrance - leaves surfaces smelling clean

How It Cleans

FOR USE IN A SPRAY BOTTLE: Dispense diluted product into properly labeled RTU container. Simply spray on surfaces to be cleaned, let solution sit and wipe off with a clean absorbent cloth or towel. For heavy soils, allow surface to soak 3 - 4 minutes, then agitate, and rinse clean.

FOR USE IN AN AUTOMATIC SCRUBBER OR MOP BUCKET: Dispense diluted product into mop bucket or automatic scrubber. Apply product on surfaces to be cleaned. Allow a few minutes of dwell time for the solution to penetrate the soil. If necessary, agitate to help remove excessive soils. If solution becomes visibly dirty, discard and make up fresh solution. Rinse with clean water as needed.
