

F1409-S 1000 ML Touch Free Automatic Bulk Sanitizer Dispenser

Reduces the risk of cross-contamination in your facility and the transmission of viruses and other pathogens. No more handling or touching of potentially contaminated bottles or touching traditional push dispensers.

Attractive, large capacity (1000 mL/33.8 oz), automatic touch free bulk hand dispenser detects hands with smart infrared sensor and dispenses 1 mL of sanitizer quickly.

Wall mounted unit conserves space - keeps bottles off counters or from getting misplaced. Compatible with our SSS Portable Hand Hygiene Dispenser Stand (#19766). Large window alerts staff to when to refill.

- Keep your restroom or work area clean - smart infrared sensor will not drip, leak, or spill. Indicator light will turn on if sensor is hindered.
- Large capacity, refillable 1000 mL bottle
- Dispenses 1 oz. per application
- Lockable to prevent tampering
- Constructed of tough, ABS plastic for long-lasting use
- Battery operated with low-battery light indicator (approximately 30,000 cycles)
- Requires 4C batteries (not included)
- Includes screws and anchors for wall-mounting
- Dimensions: 5.1" L x 4.5" W x 10.6" H

Fill with our SSS Instant Hand Sanitizer Gel, #91002, or compatible with other sanitizers.

Recommended for hospitals, schools, restrooms, kitchens, gyms, offices, hotels, restaurants, airports, and other public areas.
