

PRO SERIES

PRETREAT PLUS

Prespray & Bonnet Cleaner

Ultra-low residue formula combines powerful solvents and detergents to release soils. Designed for use as a carpet cleaning pre-spray before extraction, or for interim maintenance. Recommended for all types of carpet. Formulated with Pleasant Scent fragrance.

Vacuum carpet thoroughly. Pre-test carpet for colorfastness in an out-of-sight area.

**Penetrates & Lifts Tough Oil & Water-based Soils - Neutral pH -
Prespray & Bonnet Application**

Directions

Prespray and Extraction:

For moderate soil: Dilute 1:8 (16 ounces per gallon of water).

For heavy soil: Dilute 1:4 (32 ounces per gallon).

Apply PreTreat Plus through a pump-up or pressure sprayer applicator. Pay particular attention to traffic lanes and heavily soiled areas.

Allow prespray to dwell for 5-15 minutes. For maximum results, rake carpet to loosen matted carpet fibers in traffic areas to increase soil removal.

Extract with SSS Carpet Rinse Plus, or SSS Fiber All according to label directions.

Interim Cleaning - Rotary Machine:

Dilute 1:16 (8 ounces per gallon of water).

Spray Method: Mix solution in a pump-up or pressure sprayer applicator. Generously prespray carpet and allow 5-10 minutes dwell time. Do not allow to dry. Lightly spray a carpet cleaning pad and position it on the machine. As the pad becomes soiled, turn over or replace.

Specs

Dilution: 1:8 - 1:4

pH Level: 8.0 - 8.5

Color: Water Clear

Fragrance: Pleasantly Fresh

Pack: 4/1 Gallon (#48005)

The unique detergent system in Pretreat Plus loosens tough oils, water-based soils, and makes cleaning more effective.

PRO SERIES

Immersion Method: Immerse carpet cleaning pad in diluted solution, then wring out tightly. Position pad on the machine. When both sides of the pad are soiled, rinse in clear water, wring out tightly, and re-soak in cleaning solution before proceeding.
