

BRIGHT FORCE

ALL TEMP Dish Detergent

This highly concentrated non-foaming cleaner is formulated for superior performance in both high and low temperature dish machines. The high concentration of both alkaline boosters and cleaning agents helps break down and remove heavy grease and other build-up from everyday food service use.

Directions

- Spot clean heavy build-up on dishes and flatware.
- Dilution may vary depending on facility-type and soil level.
- Traditional usage is between 3-7 ml per gallon.
- Ensure equipment is dosing properly using the titration method to test alkalinity.
- Test multiple racks to ensure proper effectiveness.

Features

- Versatile for Use in Range of Equipment
- Low-Foaming Formula for Easy Rinsing
- Non-Chlorinated Formulation

Recommended For

- Hot Water Dish Machine
- Cold Water Dish Machine
- Equipment Washing

Specs
